THIRD AMENDMENT OF SPECIFICATION AND REQUEST FOR ENTRY
OF A THIRD PAPER FORM COPY OF THE SEQUENCE LISTING
CONTAINING NUCLEOTIDE SEQUENCE AND/OR
AMINO ACID SEQUENCE DISCLOSURES

Assistant Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

In accompaniment with the enclosed Reply to the Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures mailed April 2, 2001, as extended through August 2, 2001, applicants

respectfully amend the above-identified application by submission and entry of a third paper form copy of the sequence listing.

This third submission of the enclosed "Sequence Listing in paper form copy is made pursuant to and in compliance with the requirements set forth in 37 C.F.R. 1.821-1.825 respectively. Applicants' undersigned attorney declares and verifies that this third amendment and requested formal entry of the third "Sequence Listing" in paper form copy is proper and correct in all respects; and that the enclosed third "Sequence Listing" in paper copy form is completely supported by the descriptive content and enabling disclosure of the Specification text originally filed September 2, 1998 as USSN 09/145,91

In addition, applicants' undersigned attorney further declares and verifies that the enclosed third "Sequence Listing" submitted in paper form copy does not contain or include any New Matter; and that a third submission of a computer readable form (CRF) copy of the third "Sequence Listing" is also provided, the third computer readable form (CRF) copy being identical in substantive content to the enclosed third paper form copy. Accordingly, this third paper form copy "Sequence Listing", after being formally entered into and made part of the Specification, is to be transferred to the custody of the Patent Examiner of record; and the formally entered third paper form copy

"Sequence Listings" shall now constitute part of the Specification text and may be employed by the Patent Examiner of record during the substantive prosecution of this application.

Respectfully submitted,

SIMONS *et al.*
